### THE WEST COAST EXPERIENCE

The South Island West Coast has always had a special place in the heart of New Zealanders. In part this stems from its liberal hotel trading hours during the six o'clock closing era. It was, and still is, a place where locals and visitors can mix, mingle, and socialise. It all started back in the 1800's with the lure of gold as immigrants from all round the world arrived to make their fortune in the West Coast rivers. These days, while mining (Coal and Gold), are still important, it is other industries like forestry and fishing attracting that special type of person to "The Coast". Nestled on what is a narrow strip of land between the ocean and mountains the South Island West Coast has that feeling of untamed natural wilderness. A great place to explore and take some time to "smell the roses".
